The Glenn Land Farm Dexter herd was established in 1988 with cattle from Missouri, Idaho, Oregon and California. Over the years the herd has grown from a few to more than 50 breeding cows and 5 outstanding bulls. Our cattle have been very competitive at the national shows that we have been able to attend and our herd bulls have made significant contributions to the genetics of the Dexter breed across the nation. At Glenn Land Farm we are very excited about Dexters and we know you will be too once you try them.

Until now, we have sold cattle to buyers on an individual basis, but with increasing interest in the breed and our bloodlines we have decided to offer this year's crop via an online auction. Those who can come to the ranch prior to the sale to preview the cattle are quite welcome, but for those who cannot we hope the sale catalog and the information provided will allow you to make informed purchasing decisions. Feel free to contact us for questions you have.
