Glenn Land Farm White Dorpers have found a niche in both the upscale restaurant and farmer's market trade as well as in the ethnic community. Pasture finished lamb is desired by a large portion of the specialty market consumers and White Dorpers fit the specs perfectly. You may already be selling to these markets, but if you are not you should strongly consider the virtues of this breed of sheep in the market scheme of the major population centers of the western states. At Glenn Land Farm we are very excited about these sheep and we know you will be too once you try them. All of the consignors at the production sale are equally excited about Dorpers and hope you can come and enjoy a special day devoted to this breed.
